

Petrol & Diesel Rip off

See what you think and pass this message on if you agree with it.

We are hitting 106.9 p a litre in some areas now, soon we will be faced with paying £1.10 a litre, or more.

Philip Hollsworth (whoever he is) offered this good idea:

Please read it and join in!

It makes MUCH MORE SENSE than the 'don't buy petrol on a certain day' campaign that was going around last April or May! The oil companies just laughed at that because they knew we wouldn't continue to hurt ourselves by refusing to buy petrol. It was more of an inconvenience to us than it was a problem for them. BUT, this plan can really work.

Now that the oil companies and the OPEC nations have conditioned us to think that the cost of a litre is CHEAP, we need to take aggressive action to teach them that BUYERS control the market place not sellers. With the price of petrol going up more each day, we consumers need to take action. The only way we are going to see the price of petrol come down is if we hit someone in the pocket by not purchasing their Petrol and we can do that WITHOUT hurting ourselves!

Here's the idea:

Today onwards DON'T purchase ANY petrol from the two biggest oil companies (which now are one) - ESSO and BP.

If they are not selling any petrol, they will be inclined to reduce their prices. If they reduce their prices, the other companies will have to follow suit. But to have an impact we need to reach literally millions of Esso and BP petrol buyers. It's really simple to do.

Now, don't wimp out on me at this point... keep reading and I'll explain how simple it is to reach millions of people.

I am sending this note to a lot of people. If each of you send it to at least ten more ($30 \times 10 = 300$) and those 300 send it to at least ten more ($300 \times 10 = 3,000$) and so on, by the time the message reaches the sixth generation of people, we will have reached over THREE MILLION consumers! If those three million get excited and pass this on to ten friends each, then 30 million people will have been contacted. If it goes one level further, you guessed it...

THREE HUNDRED MILLION PEOPLE!!

Again, all you have to do is send this to 10 people. That's all. (and not buy at ESSO/BP) How long would all that take? If each of us sends this email out to ten more people within one day of receipt, all 300 MILLION people could conceivably be contacted within the next 8 days! Acting together we can make a difference. If this makes sense to you, please pass the message on and ...

PLEASE HOLD OUT UNTIL THEY LOWER THEIR PRICES TO THE 69p a LITRE RANGE.

It's easy to make this happen. Just forward this email, and buy your petrol at Shell, Asda, Tesco, Sainsburys, Morrisons Jet etc. i.e. boycott BP and Esso. You get clubcard/ nectar points at Tesco and Sainsbury's and it's usually cheaper there anyway.
